

AHMED MOHAMED

Frontend Developer | React.js & Next.js Specialist | Junior Full Stack Engineer

Riyadh, Saudi Arabia • +966 595788323 • ahmedymcareer@gmail.com • [LinkedIn Profile](#) • [GitHub Profile](#)

PROFESSIONAL SUMMARY

Results-driven Frontend Developer and Junior Full Stack Engineer holding a Master's degree in Information Technology with 2+ years of hands-on experience building performant, responsive, and scalable web applications. Specialized in modern frontend architectures using React.js, Next.js (App Router, SSR, SSG), TypeScript, and Tailwind CSS. Proven track record of accelerating page load speeds by 25%, lifting codebase maintainability by 20%, and delivering commercial platforms with 90+ Lighthouse performance benchmarks. Adept at translating complex product requirements into accessible, high-converting digital solutions through rigorous QA testing, UAT methodologies, and clean code practices.

TECHNICAL SKILLS & COMPETENCIES

Core Frontend: React.js, Next.js (App Router, Server Actions, SSR/SSG), JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

UI Architecture & State: Component Architecture, State Management (Context API, Redux Toolkit), Responsive Web Design, Design Systems

Backend & Database: Node.js, Express.js, RESTful API Integration & Design, Serverless Edge Functions, MySQL Database Management

CMS & E-Commerce: Storyblok (Headless CMS), Decoupled Content Delivery, Shopify Liquid & Theme Customization

Performance & SEO: Core Web Vitals Optimization (LCP, FID, CLS), Lighthouse Audits, Technical SEO, Code Splitting, Asset Optimization

Testing & Quality: User Acceptance Testing (UAT), Regression Testing, Cross-Browser / Cross-Device Testing, Postman API Testing

Tools & Workflow: Git, GitHub (Version Control & PR Reviews), Vercel CI/CD, Vite, Webpack, NPM, Figma-to-Code Implementation

PROFESSIONAL WORK EXPERIENCE

Frontend Developer Specialist

Aug 2025 – Present

Alshamelah International Schools

Riyadh, Saudi Arabia

- **Portal Modernization:** Re-engineered 6 high-impact web modules across the public site and parent portal (Admissions, Announcements, and Student Dashboards) using JavaScript (ES6+), semantic HTML5, and CSS3, boosting cross-device responsiveness and reducing bounce rates.
- **Technical SEO Architecture:** Restructured portal metadata hierarchy, canonical indexing, and intuitive navigation flows, improving organic search discoverability and elevating institutional web presence across search engines.
- **Authentication & Access Control:** Designed and implemented an automated, role-based user authentication module for administrative portals, guaranteeing zero-trust access control for 70+ weekly active institutional users.
- **Performance Optimization:** Optimized client-side asset delivery and render-blocking scripts, reducing first-contentful-paint (FCP) times by 20% on mobile connections.
- **Technical Mentorship:** Instructed and mentored 40+ secondary students in algorithmic computational thinking, Python fundamentals, and modern web engineering concepts alongside primary portal development.

Web Developer Intern

Jul 2024 – Jan 2025

Edense Sdn. Bhd.

Kuala Lumpur, Malaysia

- **Component Refactoring:** Systematically refactored 10+ core view components into isolated, reusable React.js and Next.js modules, improving developer velocity and team codebase maintainability scores by 20% during peer code reviews.
- **Performance Auditing:** Spearheaded web performance initiatives using Google Lighthouse and PageSpeed Insights, achieving a 25% decrease in overall page load duration through lazy loading, image optimization, and bundle minimization.
- **API Integration & Postman QA:** Validated complex REST API endpoints, HTTP status handling, payload schemas, and edge-case exceptions using Postman collections to ensure robust integration contracts before deployment.
- **Quality Assurance & UAT:** Executed detailed manual User Acceptance Testing (UAT) and regression test matrices ahead of weekly releases, uncovering and resolving 15+ functional and UI defects alongside product managers.
- **Agile Collaboration:** Partnered closely with UI/UX designers and full stack engineers within weekly agile sprints to translate Figma prototypes into pixel-perfect, accessible web interfaces.

Software & Hardware Technical Support Intern

Jan 2022 – Jun 2022

Engineering Consultant Group (ECG)

Doha, Qatar

- **Enterprise Support:** Provided comprehensive hardware, OS, and network diagnostic troubleshooting for 50+ enterprise engineering workstations, lowering unexpected system downtime by 20%.
- **Hardware Maintenance:** Handled workstation component assemblies, system recoveries, and preventive security routines, safeguarding 99%+ operational availability across engineering teams.

KEY PROJECTS & COMMERCIAL CLIENT SOLUTIONS

Eagle Eye Trading Est. – Bilingual Corporate Platform

Aug 2026 – Sep 2026

Next.js 14, TypeScript, Three.js, GSAP, Resend API, Vercel • Commercial Client Project

[Live Site: eagleeye-est.com](https://eagleeye-est.com)

- **Full-Stack Architecture:** Engineered a commercial web application from discovery to production for an industrial electrical and security systems integrator, utilizing Next.js, TypeScript, and serverless API endpoints.
- **Localization & RTL:** Architected complete English/Arabic internationalization featuring native RTL stylesheet layouts, metadata localization, and static site generation (SSG) for ultra-fast response times.
- **3D Graphics & Animation:** Integrated interactive 3D hero models using Three.js and fluid scroll-linked triggers using GSAP while maintaining rigorous performance budgets (90+ mobile Lighthouse score).
- **Automated Inquiries:** Implemented a serverless RFQ and quote request pipeline leveraging the Resend API and edge computing functions, eliminating lost leads and automating client notification workflows.

Amal Educational Platform – University Search Engine

Jan 2025 – Dec 2025

Next.js, Headless CMS (Storyblok), Tailwind CSS, REST APIs • Commercial Client Project

[Live Site: amaledu.com](https://amaledu.com)

- **Platform Architecture:** Developed and launched a dynamic higher-education directory serving 30+ institutional users, integrating complex multi-parameter filtering for majors, tuition fees, and admission criteria.
- **Headless CMS Integration:** Configured Storyblok Headless CMS via decoupled REST APIs, empowering non-technical admissions and marketing teams to author, edit, and publish dynamic university catalogs without developer dependency.
- **Performance & Speed:** Improved desktop and mobile load speeds by 15% through aggressive image optimization, server-side caching, and responsive UI layout components.

Thomson Health Storefront Optimization & CRO

Jul 2024 – Oct 2024

Shopify Liquid, JavaScript (ES6+), CRO UI/UX Strategy • Commercial Client Project

[Live Store: thomsonhealth.com](https://thomsonhealth.com)

- **Conversion Rate Optimization:** Re-engineered key shopping funnel interactions for a regional wellness brand, introducing dynamic cart drawers, persistent trust signals, and guided product categorization.
- **Commercial Impact:** Successfully streamlined checkout friction points, directly resulting in a client-verified 10% to 20% growth in online completed sales transactions within 60 days post-launch.

Beh IDesign Studio Landing Page & Lead Pipeline

Nov 2024

React.js, Next.js, Form Validation APIs, Tailwind CSS • Commercial Client Project

[Live Site: behidesign.vercel.app](https://behidesign.vercel.app)

- **Lead Capture Simplification:** Consolidated a convoluted multi-stage inquiry flow into an intuitive, responsive single-page capture form, substantially reducing user drop-off.
- **Workflow Integration:** Connected form submissions to client business spreadsheets via secure backend webhook APIs, achieving a 95% reliable end-to-end data delivery rate in automated tests.

QR Queue Management System – Full Stack Capstone

Oct 2023 – May 2024

React.js, Node.js, Express.js, MySQL, REST APIs, QR Generation • Capstone Project

[Source Code: GitHub](#)

- **Architecture & Data:** Built an end-to-end queue ticketing and dispatch platform using React.js, Express.js, and relational MySQL schemas, supporting 20+ simultaneous concurrent active sessions.
- **Testing & Validation:** Executed 35 rigorous end-to-end test scenarios covering dynamic QR ticket generation, real-time ticket state transitions, and administrative counter operations.

EDUCATION

Master of Information Technology (MIT)

Jan 2025 – Jan 2026

INTI International University, Malaysia (ODL)

CGPA: 3.67 / 4.00

- **Key Focus Areas:** System Development Architecture, Enterprise IT Strategy, Advanced Database Systems, IT Project Management.

Bachelor of Computer Science (Hons) – Software Engineering

Jul 2022 – Nov 2024

Multimedia University (MMU), Malaysia

CGPA: 3.11 / 4.00 (Second Class Honours)

- **Key Focus Areas:** Software Engineering Lifecycle, Object-Oriented Analysis & Design (OOAD), Algorithms & Data Structures, Quality Assurance & Testing (QA/QC), Operating Systems.

PROFESSIONAL CERTIFICATIONS & COURSES

- **Next.js & React – The Complete Guide** (40.5 hrs) – Instructed by Maximilian Schwarzmüller, Udemy • Certificate No: UC-6e34ca26 • Jun 2026
- **The Complete Web Development Bootcamp** (63 hrs) – Instructed by Dr. Angela Yu, Udemy • Certificate No: UC-ab71862e • Oct 2023

LANGUAGES

Arabic: Native Proficiency | **English:** Full Professional Working Proficiency (All Degree Programs & Assessments Conducted Exclusively in English)
